Your Kido Development Journey

"A nursery can only truly thrive if its people are happy, fulfilled and valued"

Our Values

Our Listen, Learn and Lead company values are core to the decisions and actions we take as individuals and as a business. They are there for us to improve our behaviours, attitudes and actions in our day-to-day work.

Think about what points align most with you and why. What points do not align and how could you bring these into your work more?

Listen

- We actively listen to our children, making decisions and taking action with their **best interests at heart**.
- We actively **collaborate** with parents. We involve them in nursery life so that they know their children are in a loving, trusted and safe learning environment.
- We listen and **respect** each other, embracing our **diverse** and **inclusive** culture.

Learn

- We **inspire** our children with our **nurturing and fun** approach, ensuring that every experience is a learning opportunity.
- We learn through **feedback** from our families, recognising where we've done well and where we can strive for more.
- We embrace each moment as a chance to **grow and evolve**, taking action to **develop our skills, mindset and attitude**.

Lead

- We **pride** ourselves on being **positive role models** for the children.
- We lead all of our family engagement to be **outstanding in everything we do**.
- We **lead by example** for our teams, modelling the work ethic and behaviours we wish to see in others.

We recognise that work is a big part of our lives and therefore, time spent in the workplace should be as enjoyable and gratifying as possible.

Other factors such as friends, family, community, hobbies & passions, also play a huge part in making us feel connected, challenged and whole.

Our vision, as an employer, is to provide the training, guidance and support you need to become the best version of yourself. Your personal goals and career aspirations are unique to you. It's our job to help you achieve them.
